

# Arianna is fighting a life-threatening cancer

Arianna is a beautiful, funny and kind-hearted 5-year-old, who loves dressing up in princess and superhero costumes and playing with her two younger sisters. She is the kindest little girl, so thoughtful and considerate of others. She has a heart of gold.

In November 2021, Arianna was diagnosed with high-risk neuroblastoma, a rare and aggressive childhood cancer that has a 40-50% chance of long-term survival at diagnosis.

Arianna's family are fundraising for further treatment, either to get their daughter into remission or to try and keep the cancer away if her treatment goes to plan.

 Arianna, the real Wonder Woman

DONATE

If you would like to fundraise for Arianna, please contact Solving Kids' Cancer UK for support at [fundraising@solvingkidscancer.org.uk](mailto:fundraising@solvingkidscancer.org.uk) or on **020 7284 0800**.

Funds raised will go towards helping Arianna and her family. If Arianna no longer needs the funds or is in remission five years post the end of successful treatment, the funds will be used to support other children and families affected by neuroblastoma through Solving Kids' Cancer UK's activities. For children with high-risk neuroblastoma, like Arianna, the survival rate is much lower than other childhood cancers. Upon relapse, this rate reduces even further. Solving Kids' Cancer UK is a registered charity in England and Wales 1135601, and in Scotland SCO45094.
